

GEM-Chem

Innovation & Enterprise
Polymer Science, Technology and Marketing

GEM-Chem are authors of books and articles on Polymer Science, Technology and Marketing. Our publications are industry oriented. All the titles are published on **CD-ROM**. Articles can be sent by e-mail upon request.

The **CD-Books** are available in three versions:

- **From chemistry to marketing.**
(Price: 45 Euros).
- **An advanced course.** It is the same as the previous version but it does not include a literature survey.
(Price: 40 Euros).
- **A course.** This version is a simplified approach to the subject.
(Price: 30 Euros).

All versions include the following topics:

Butyl rubber	Chloroprene rubber
Electrically conductive polymers	Isoprene rubber
Nitrile rubber	Polymer nanocomposites
Polyacetal	Polyamide 4,6
Polycarbonate	Polyphenylene ether
Thermoplastic polyurethanes	Biobased polyols

GEM-Chem's **CD-Articles** (Price: 25 Euros) consist of data bases on **all producers and plant capacities** of specific polymers and polymer chemicals.

They include:

Polycarbonate	Polyethylene	Polypropylene
Polystyrene	ABS, ASA & SAN	MDI, PMDI, TDI & Aliphatic di-isos
PVC	Polyamides	PBT
Butyl rubber	Polychloroprene	NBR
PET	Polyisoprene	MMA & PMMA
Polyacetal	Butadiene	Acrylonitrile
Bisphenol A	SBR	Flame retardants

A detailed description of the CD-Books and data bases can be found in the web page entitled **The Polymer Bookshop** of GEM-Chem's website.

New titles are added on a regular basis.

The publications can be ordered via GEM-Chem or its regional representative.

The author of all publications is Dr Demosthenes Kyriacos, President, GEM-Chem. D. Kyriacos has worked at Upjohn, GE and ICI in international Technical Services, Sales and Marketing.

He holds a B.Sc. (Distinction, Honours, University award of Chemistry) from Alexandria University, a M.Sc. course (ICI scholarship award) in Polymer Technology and, a Ph.D. from Loughborough University (UK).

D. Kyriacos is the founder of DK Business Group and GEM-Chem.
